SPECIAL SERVICE NEEDS OF APPLICANT

NOTE: FORM MUST BE COMPLETED BY APPLICANT ONLY. A MAP OR SKETCH OF SERVICE LOCATION REQUEST MUST BE ATTACHED.

The District shall sell and deliver water service to the Applicant and the Applicant shall purchase, receive, and/or reserve service from the District in accordance with the Service Policies of the District, as amended from time to time by the Board of Directors of the District. Upon compliance with said Policies, including payment of a deposit, the Applicant shall become eligible to receive service.

The Applicant shall pay the District for service hereunder as determined by the District's Service Policies and upon the terms and conditions set forth therein, a copy of which has been provided as an information packet, for which Applicant acknowledges receipt hereof by execution of this Agreement. A copy of this Agreement shall be executed before service may be provided to the Applicant.

The Board of Directors shall have the authority to discontinue, terminate or suspend the service to any customer not complying with any policy or not paying any utility rates, fees or charges as required by the District's published Service Policies. At any time service is discontinued, terminated or suspended, the District shall not re-establish service unless it has a current, signed copy of this agreement.

All water shall be metered by meters to be furnished and installed by the District. Any plumbing attached to our service connection is the full responsibility of the Customer. Any water leakage at that connection or anywhere on the customer's service line will be billed to the customer. The customer will be responsible for full payment. The meter connection is for the sole use of the customer and is to provide service to only one (1) dwelling or one (1) business. Extension of pipe(s) to transfer utility service from one property to another, to share, resell, or sub-meter water to any other persons, dwellings, businesses, or property, etc., is prohibited.

The District shall have the right to locate a water service meter and the pipe necessary to connect the meter on the Applicant's property at a point to be chosen by the District, and shall have access to its meter and equipment located upon Applicant's premises at all reasonable and necessary times for any purpose connected with or in the furtherance of its business operations, and upon discontinuance of service the District shall have the right to remove any of its equipment from the Applicant's property. The Applicant shall install, at their own expense, any necessary service lines from the District's facilities and equipment to the point of applicant's use, including any customer service isolation valves, backflow prevention devices, pressure regulators, clean-outs, and other equipment as may be specified by the District. The District shall also have access to the Applicant's property for the purpose of inspecting for possible cross-connections, potential contamination hazards, illegal lead materials, and any other violations or possible violations of state and federal statutes and regulations relating to the federal Safe Drinking Water Act or Chapter 341 of the Texas Health & Safety Code or the District's Service Policies.

The District is responsible for protecting the drinking water supply from contamination or pollution which could result from improper practices. This service agreement serves as notice to each customer of the restrictions which are in place to provide this protection. The District
